Wanted: Applicants with documented workplace skills

Employers across the country are overwhelmed by stacks of applications for only a handful of open positions. Sifting through these applications is time consuming and inefficient. You need a way to quickly pinpoint individuals with essential, verifiable workplace skills. Your solution: the ACT National Career Readiness Certificate™ (ACT NCRC).

Identify qualified applicants

Ask your applicants to earn the ACT NCRC. It's that simple. Once you do, you'll be on your way to finding qualified applicants for your job openings. The ACT NCRC is a portable, evidence-based credential that documents essential skills needed for workplace success. This credential is used across all sectors of the economy and verifies the following cognitive skills:

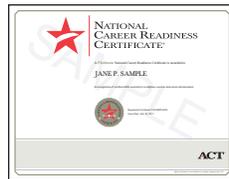

- Problem solving
- Critical thinking
- Reading and using work-related text
- Applying information from workplace documents to solve problems

- Applying mathematical reasoning to work-related problems
- Setting up and performing work-related mathematical calculations
- Locating, synthesizing, and applying information that is presented graphically
- Comparing, summarizing, and analyzing information presented in multiple related graphics

Build a strong applicant pool by asking for the ACT NCRC.

Individuals can earn the ACT NCRC by earning appropriate scores on three ACT WorkKeys® assessments:

- Applied Mathematics
- Locating Information
- Reading for Information

ACT WorkKeys assessments measure foundational skills required for success in the workplace. The assessments that comprise the ACT NCRC measure the skills found to be most essential across industries and occupations.

Certificate level	Level score requirements	Comparison to skill levels in the ACT JobPro® database*
Platinum	Minimum score of 6 on each of the three assessments	Examinee demonstrates foundational skills associated with approximately 99% of jobs in the ACT JobPro database
Gold	Minimum score of 5 on each of the three assessments	Examinee demonstrates foundational skills associated with at least 93% of jobs in the ACT JobPro database
Silver	Minimum score of 4 on each of the three assessments	Examinee demonstrates foundational skills associated with at least 67% of jobs in the ACT JobPro database
Bronze	Minimum score of 3 on each of the three assessments	Examinee demonstrates foundational skills associated with at least 16% of jobs in the ACT JobPro database

* Individuals may meet the requirements of a larger percentage of jobs in the ACT JobPro database—ACT's proprietary database that identifies foundational skill requirements for nearly 20,000 job titles—depending on their scores on the three individual ACT WorkKeys assessments. Individuals and employers are encouraged to consult the database for more information about skill requirements associated with specific jobs or contact ACT to set up a detailed job analysis.
